# Standard Melamine Wood Grains

Maple

Décor Code – 0375  
 Texture - PR  
 Colour – Light Woodgrain  
 Manufacturer – Kronospan  
 Core - MDF  
 Rating – STD non-Exterior  
 Certification – FSC

Light Sorano Oak

Décor Code – H1334  
 Texture – ST9  
 Colour – Light Woodgrain  
 Manufacturer – Egger  
 Core - Chipboard  
 Rating – STD non-Exterior  
 Certification – FSC

Bavaria Beech

Décor Code – 0381  
 Texture – PR  
 Colour – Medium Woodgrain  
 Manufacturer – Kronospan  
 Core - MDF  
 Rating – STD non-Exterior  
 Certification – FSC

Tobacco Aida Walnut

Décor Code – H3704  
 Texture – ST15  
 Colour – Dark Woodgrain  
 Manufacturer – Egger  
 Core - Chipboard  
 Rating – STD non-Exterior  
 Certification – FSC

Verona Cherry

Décor Code – H1615  
 Texture – ST9  
 Colour – Medium Woodgrain  
 Manufacturer – Egger  
 Core - Chipboard  
 Rating – STD non-Exterior  
 Certification – FSC

Melamine Boards are ideal for furniture manufacture. The surface is very durable and Quadra use this throughout our products!

Melamine's have a range of advantages including: The board is easily machinable, which is ideal for finishing touches such as drilling and creating particular styles and shapes. It can replicate the look and feel of wood alternatives such as solid wood panels. It is affordable, durable and strong.

# Standard Melamine Solid Colours

White

Décor Code – K101  
Texture - PE  
Colour – White  
Manufacturer – Kronospan

# Standard Real Wood Veneers

European Oak

American White

Crown Cut Ash

Crown Cut Maple

Crown Cur American Walnut

Veneer Boards are a stock item, each board could be a different cut from the next, this causes problems colour matching. To sort this, we can order boards to be book matched but this adds a further cost to the item of furniture.

When making in a Veneer we need to coat the built item with 3 coats of lacquer

Quadra AV Furniture source the highest quality Hardwoods and real wood veneers. The varying grain and figure of these woods genuinely emphasise the natural beauty and individuality of the material.

No two pieces of timber are identical and there will be natural variations in the grain, knots and colouring. This arises from natural minerals in the wood.

A Veneer is a thin decorative covering which is bonded to an MDF sub straight, these boards will differ in colour to the solid wood which are denser.

Items of furniture will change colour in its life cycle due to UV sun light, if you leave a leather writing pad on a boardroom table for a while, when it's removed it can be a different colour.

# Boardroom Tabletops

Every customer has a different requirement for style, finish and size of table. The main shapes for tables are Barrel, Tapered, Rectangular, Wishbone or U shaped.

There are an infinite number of finishes, so Quadra will visit your customer and survey the whole room layout. Once we know the key details such as table shape, number of seats, connectivity and finish, we can produce a realistic visual so everyone can see exactly how it will look in-situ.

Quadra AV Furniture source the highest quality hardwoods and real wood veneers. The varying grain and figure of these woods genuinely emphasise the natural beauty and individuality of the material. No two pieces of timber are identical and there will be natural variations in the grain, knots and colouring. This arises from natural minerals in the wood.

**We offer 4 levels of finish when quoting and these are:**

## Gold+

With the Gold+ standard you have a 30mm thick tabletop with hardwood lipping's, two veneers – inner crown cut veneer and outer cross band veneer which is separated by a 5-6mm black inlay. Finished in 30% clear lacquer.

## Gold

With the Gold standard you would have a 30mm thick tabletop with hardwood lipping's, one real wood veneer finish – this veneer will run the shortest width of the table so where the leaf's meet the grain blends with the join. Finished in 30% clear lacquer.

## Silver

With the Silver standard you would have a 25mm thick tabletop with 2-3mm real wood veneer edging. One real wood veneer finish – this will run the shortest width of the table so where the leaf's meet the grain blends with the join. Finished in 30% clear lacquer.

## Bronze

With the Bronze standard you would have a 25mm thick tabletop with 2-3mm abs edging. One melamine finish – this will run the shortest width of the table so where the leaf's meet the grain blends with the join.

# Custom Finish / Ideas

If you have a finish in mind, please do let us know and we can then order some samples for you.

We work with all the main manufacturers like Kronospan, Egger and Formica.

We also work with specialist veneer companies who have a vast array in stock from exotic, bold, warm, fresh and modern: veneer provides such a range of options.

Decorative laminate is a mainstay of commercial interior design and Quadra can offer the latest designs and textures as well as classic best sellers.

Veneers and Melamine's also work well together as a contrast!

# Vinyl Wraps / Branding Ideas

Concept renders with branding on one of our Digi Towers

Satin Carbon Fibre Wrap on Black Melamine above, Vinyl Logo on White Melamine below

Vinyl Logos for Lecterns, all we need is the size and a high-quality PDF or A.I file.
