QUADRA AV FURNITURE

Collaborate

Control

Communicate

Converse

AV lecterns, cabinets, media walls, video walls, collaboration tables, huddle spaces, boardroom and meeting room tables, control desks, server racks, screen stands / trolleys and sound management solutions to name a few

Collaboration

The Alliance Collaboration table offers flexibility for the ever-changing meeting space.

If you do not have a screen on your office / meeting room wall or often rearranging meeting rooms within the business, to save the cost of taking the room out of action for a week while a builder chases cables into the wall and floor then re-decorates and re-carpets the room. Following that you have the AV to install which includes running cables and fitting the screen and bracket, it all takes time and money! Once this work is done the customer uses an off the shelf table which needs a cable port cut into the top. (Some tables will not allow this due to the frame underneath). You could save your customer time and money by supplying the Quadra Alliance table which is all self-contained and takes less than a day to install with all the technology. (subject to AV installers being able to install kit the same day)

These come with a rear shield to stop people playing with cables in the back of the screen, or if sat in front of windows they look neat and tidy. We have as standard 3, 5, 7, 9 & 11 seat configurations but as we manufacture, we can tailor to suit your needs.

The Alliance tables & towers

The Alliance range is the perfect solution for group thinking. It features a table design allowing all participants to clearly see each other and the display screen.
We can incorporate easy screen connection and video conferencing can be incorporated.

At Quadra we have developed a range of innovative solutions designed to enhance the current trend for collaborative working, making the best use of the space available.

WorkZone tables

These are similar to the Alliance tables but totally constructed of wood, where the screens are inset into a media style wall which also incorporates a connected table. For some larger screens, the unit will need to be fixed back to a wall. We can make these in any finish from veneers, laminates to melamine's.

Alliance Tables

Description: Alliance 3 table

Alliance collaboration VC meeting table to seat 3 people. The table fits a 49” to 55” screen and includes a video conference camera shelf. Quadra AV Furniture source the highest quality hardwoods and real wood veneers. The varying grain and figure of these woods genuinely emphasise the natural beauty and individuality of the material. No two pieces of timber are identical and there will be natural variations in the grain, knots and colouring. This arises from natural minerals in the wood.

If you have a specific finish in mind, please contact us with details and we will source samples for you.

We work with all the main manufacturers including Kronospan, Egger and Formica.

We also work with specialist veneer companies who have a vast array of stock from exotic, bold, warm, fresh and modern veneers.

Decorative laminate is a mainstay of commercial interior design and Quadra can offer the latest designs and textures as well as classic best sellers.

Comprehensive range available

About Us.

We design and install prebuilt and bespoke AV furniture, Media walls, lecterns, credenzas, stands, trolleys, cabinets, acoustic treatments and much more.

We do this using the latest professional CNC machinery and only the best core materials. Located in York with close access to the motorway network we are conveniently located to deliver and install across the UK.
