Connectivity

EVOLine® FlipTop Push

The EVOLine® FlipTop Push provides an 'executive' yet simple and effective solution to future proof connectivity with its range of interchangeable data and multimedia sockets. At the press of a finger, the cover opens to reveal the power and connectivity sockets. Retractable, even when in use, the FlipTop Push provides a contemporary and stylish solution for the workplace, hotel and meeting/boardroom tables. Only 68mm in depth, it is quick and easy to install whether for new build, refurbishment or retrofit.

The FlipTop Push can be custom tailored and specified with [UK and/or international sockets, USB Chargers, data and multimedia modules.](#)

Finish Options

- Brushed solid stainless steel cover, Black anodised aluminium profile.
- Black powder coated steel cover, Black anodised aluminium profile.
- White powder coated steel cover, Black anodised aluminium profile.

U Dock

EVOLine® U-Dock

The EVOLine® U-Dock provides a modular and versatile under desk solution.

Robust in design, this functional system is ideal for placement of power and connectivity under a meeting or boardroom table, accessible via an opening in/behind the table.

Alternatively the U-Dock can be installed within the custom designed EVOLine® Rail.

The U-Dock can be tailored to individual interiors and specified with UK and/or international sockets, USB Chargers, data and multimedia modules.

Finish Options

Silver anodised aluminium profile, Black plastic end covers.

Mounting Options

End Cap with mounting tabs (screw fixed).

Flush Mounting set with wing nuts or screws within EVOLine® Rail.

EVoline® ONE

“RedDot Design Award” 2019, Iconic Awards “Innovative Interior” 2019

The ONE is the smallest ever Power & Connectivity innovation from EVoline and very much part of their next generation of products. Available with various regional power socket or double USB charge for that subtle and discreet solution integrated within your furniture.

If required, the ONE can also be supplied with up to 2 means of combined connectivity such as HDMI, Cat6/6A or USB 3.0.

Quick and easy to install, including when retrofitting, a versatile solution for numerous horizontal and vertical applications.

Dock Fix

EVOLine® Dock Fix

Practical versatility. The DockFix is the ideal solution for areas requiring a high degree of versatility and customisation. It scores top marks for variable lengths and freely configurable connections for power, data and multimedia devices. Thanks to the two metal end caps with mounting brackets, the DockFix is easily fitted directly on, or underneath the tabletop, sideboard or lounge furniture, depending on the model. The clever part is that the DockFix can be positioned anywhere on the surface and lies flat. As a result, all connections are easy to reach. The DockFix also allows plenty of design options

Back Flip

EVOline® Back Flip

Always available, but never in the way. When closed, the EVOline BackFlip is only a thin panel on the desktop. Push it with a finger and it rotates by 180 degrees to show its useful side: USB charger and power sockets are located so far above the panel that they are protected against water running in from the side. The low installation depth of just 53 mm allows mounting even above drawers or devices.
