# Media walls & screen housings

## Audio-Visual media walls

We can design media wall solutions to fit within boardrooms, meeting rooms and reception areas. These can incorporate the screens and audio-visual equipment including equipment racks, VC cameras, speakers or storage.

## Bespoke screen surrounds

For screens which are mounted direct to the wall where the brackets can be seen behind them, we can design a bespoke surround to either fit behind the screen to cover the brackets, or we can frame the screen like in the image shown below right.

# Screen Units

## Description: Interactive 55" unit table / cabinet.

Unit to accommodate a 55" display (screen and bracket to be confirmed, supplied and installed by the integrator) Flat cabinet top for the screen so users can stand all around the perimeter. 4x carpet castors. Locking doors. Adjustable shelving or optional Quadra open frame rack inside. Cable access throughout. Large range of melamine and veneer finishes available. Optional extras include 10U or 12U open frame rack (please see peripherals section for information and pricing)

**Product Code:**  
55DISPLAY-MEL  
55DISPLAY-VEN

Approximate size (mm)  
950 x 1295 x 766 (HxWxD)

## Description: Interactive 55" cabinet with the screen at a 30 degree angle.

Unit to accommodate a 55" display (screen and bracket to be confirmed supplied and installed by the integrator) Cabinet top set at a 30 degree angle for users. 4x carpet castors. Locking doors. Adjustable shelving or optional Quadra open frame rack inside. Cable access throughout. Large range of melamine and veneer finishes available. Optional extras include 10U or 12U open frame rack (please see peripherals section for information and pricing)

**Product Code:**  
55DISPLAY30-MEL  
55DISPLAY30-VEN

Approximate size (mm)  
1320 x 1295 x 766 (HxWxD)

## Description: Interactive 55" cabinet which can be flat or angled up to 45 degrees.

Unit to accommodate a 55" display (Screen and bracket to be confirmed supplied and installed by the integrator). Screen can be altered from flat to 45 degree by the touch of a button via 2x electric rams fitted within the cabinet. 4x carpet castors. Locking doors. Adjustable shelving or optional Quadra open frame rack inside. Cable access throughout. Large range of melamine and veneer finishes available. Optional extras include 10U or 12U open frame rack (please see peripherals section for information and pricing)

55H/ADJ-DISPLAY45-M  
55H/ADJ-DISPLAY45-V

Approximate size (mm)  
950 x 1295 x 766  
Height when screen raised  
1450mm(HxWxD)

We can design and create bespoke versions of the above to accommodate different sized screens. Contact us for details.

## Description: Single screen media wall with storage cabinets

The media wall is designed for a meeting room or boardroom to house all your AV needs. 4 compartments in the base unit all have adjustable shelves. 4 doors have touch latches and fully adjustable hinges. The 2 outer doors will be solid whereas the 2 centre doors will have a smoked perspex panel inset for infra-red control. To the upper section will be a cabinet to house the customers screen, this is designed for an 82" screen. Large range of melamine and veneer finishes available. Optional extras include 10U or 12U open frame rack (please see peripherals section for information and pricing) (Screen and bracket to be supplied and installed by the integrator unless otherwise requested)

**Product Code:**  
MEDIACAB-WALL-MEL  
MEDIACAB-WALL-VEN

Approximate size (mm)  
2330 x 2492 x 635 (HxWxD)

# Screen Units

## Description: Media wall.

Single screen media walls.

This media wall is a standard product for various sizes of screens, as all screens vary in size we would need to know the model number and bracket to make sure the screen will fit into the unit. 2x opening doors to the lower section for storage. Removable centre panel which can incorporate a VC camera aperture. If you do not need an aperture for a video conference camera but might want VC at a later date we would fit a cloth covered panel so it is flush fitting with the panels and removable for a later date. Screen is set flush with the front panels.

Large range of melamine and veneer finishes available.

*Screen and bracket normally to be supplied by integrator if you wish for us to supply please let us know your requirements and we will quote.*

*Unit width approx. 55" = 1800mm, 70" = 2100mm, 85" = 2400mm, 98" = 2400mm*

# Media Wall & Surrounds

## Description: LED tile walls.

A new option for large video walls are LED tiles instead of LCD screens. By using the LED tiles loses the black bezel providing a full image without the black lines of individual screens. Here at Quadra we have designed and built wooden media walls to house and frame the new tiles in lecture theatres and receptions.

We can convert rear projection screen walls by removing the Fresnel screen and creating a flat blanking wall for the new LED tiles to be fitted. This will not effect the look of the existing wall ensuring your design is not effected.

## Description: Bespoke screen surrounds.

For screens which are mounted direct to the wall where the brackets can be seen behind them, we can design a bespoke surround to either fit behind the screen to cover the brackets, or we can frame the screen like in the image shown to the right.

If you require this service we will visit site, discuss all requirements, finishes and take measurements.

## Description: Bespoke media walls.

Media walls are increasingly being incorporated into boardrooms, reception areas and even lecture theatres. At Quadra we have created bespoke solutions which can accommodate multiple screens, VC camera's, speakers, racks or in fact any audio visual equipment required.

We offer a free design service, to provide a comprehensive quotation complete with photorealistic 3D visuals that allows us to quickly move to the manufacturing phase.

All units are available in standard melamine or veneer and we can also provide a vinyl wrap. We are happy to visit onsite to discuss requirements and take any relevant dimensions in situ.

Here are a selection of walls we have previously designed and installed.

Acoustics

Book 1, 2024

All lecterns, cabinets, media walls, video walls, collaboration tables, huddle spaces, boardroom and meeting room tables, control desks, server racks, screen stands, trolleys and sound management solutions to name a few.
